A Letter from the Executive Director

Dear Residents/Responsible Parties:

I wanted to update you on an exciting change regarding the company that provides Evans Healthcare with facility management consulting services. Our management consulting company has changed its name Sea Crest Health Care Management to LaVie Management Services.

LaVie means "The Life" and it relates to our mission, which is "People Taking Care of People... Together We Can Do Anything." The name was chosen based on input received from LaVie's customer facilities around the country.

As a member of the LaVie family of quality healthcare centers, Evans Healthcare embraces the following core values:

- Team
- Compassion
- Quality Commitment
- Service Excellence
- Fun

I believe these core values represent a great platform on which to continue to build a world class healthcare facility.

As always, thank you for all that you do. If you have any questions, suggestions, and/or concerns, I am always available to discuss those items with you.

Best regards,

Brenda Hebden

Nursing Note

HOPING TO MAKE YOUR STAY
WITH US A PLEASANT ONE

The Nursing Department would like to recognize all of our nurses and CNAs here at Evans Health Care. Nurse's Week is May 6-12, 2010, and CNA Recognition Day is June 10th. Thank you for all you do. If you see your nurse and CNAs, please let them know you appreciate them as much as we do.

Phyllis Russ
Director of Nursing

Resident Spotlight

By Sharon Lomax

"Ms. Hickman"

Ms. Hickman has been at Evans Health Care for a number of years and has made this facility her home. She enjoys interacting with others but will let you know when you come in her room that it's her room and she pays the rent! She's always pleasant and enjoys her quiet time.

Social Services

By Jessica Smith, BSW

At Evans Healthcare, we provide short-term rehabilitation for residents who need and qualify rehabilitation services. Our therapy and nursing departments work to get the resident as strong as possible so he/she can return to the community. The Social Services department provides assistance and support to the resident and family on discharge planning.

Discharge planning begins upon admission when the social worker speaks with the resident and family to find out where the resident was living prior to the hospital stay and if that will be an option at discharge. If home is not an option, the social worker can provide the resident and family a list of other options such as assisted living facilities or long-term care facilities to begin looking at to prepare for discharge. Once a discharge location and date has been identified, the social worker works with the resident and family to arrange for home health services and any needed medical equipment to be delivered to help to make the transition as easy as possible. If residents and families have any questions or concerns regarding the discharge process you can feel free to stop by and speak with the social worker.

Admissions

Always Inviting!

First impressions are the most lasting impressions. Our residents see the Admissions Department first. It's our job to make our residents feel like family; because that is what they are to us...family. How we do this? We always welcome them with a smile, we answer each and every question they may have and introduce them to our staff...their future family. We tell them all that Evans Healthcare has to offer and the wonderful caring physicians we have on board, including Dr. Dosani, Dr. Nassif, Dr. Hyppolite, Dr. Hassan, Dr. Mazzorana, Dr. Walha, Dr. Frey, Dr. Faruque and Dr. Bushan. We only choose the best; that is what our residents deserve...the best. We are here for you every step of the way! If you would like a tour please stop by our office and come see Michelle.
